Art Unit: 1652

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 11-13, 15-16, 18, 21-25, 32, 34, 35 and 37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. This rejection is repeated for the reasons given in the last action. Applicants arguments have been carefully considered but do not overcome the instant rejection.

As previously noted, the instant specification teaches that the presence of UL12 and ICP8 together will cause recombination of a nucleotide. It does not teach that an alkaline nuclease with 90% identity to SEQ ID NO:2 and a DNA binding polypeptide with 90% identity with SEQ ID NO:14 will cause recombination. In order to allow for allelic variants the examiner will allow claims drawn to 95% identity.

The previous art rejection over Olivo, et al. (A) is hereby dropped in view of applicants' amendment and arguments. The instant claims are drawn to "[a] purified or isolated Herpes simplex virus recombinase" and the instant reference does not meet the requirements of "purified" or "isolated" referred to in the Remarks in paragraphs 30 and 31 of the specification.

Claims 2 and 4 are allowed. Claims 3, 5-7, 14, 17, 19-20, 26-27, 33 and 36 are objected to as being dependent upon a rejected base claim.

Art Unit: 1652

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
